

APP操作指南

安装手机客户端

请扫描对应二维码到相应网站下载APP.

IOS

Android

添加设备

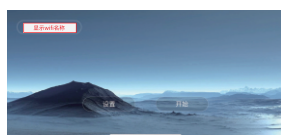

1. 打开产品电源开关
2. 进入手机“设置”并打开WIFI (注意不是蓝牙 蓝牙图标 ×)
3. 从WIFI列表中找到设备的WIFI热点“FLOW_xxxxxx”，点击连接直到连接成功
4. 打开APP，点击开始图标，进入实时界面

①. 链接wifi

②. 打开APP

③. 开始操作

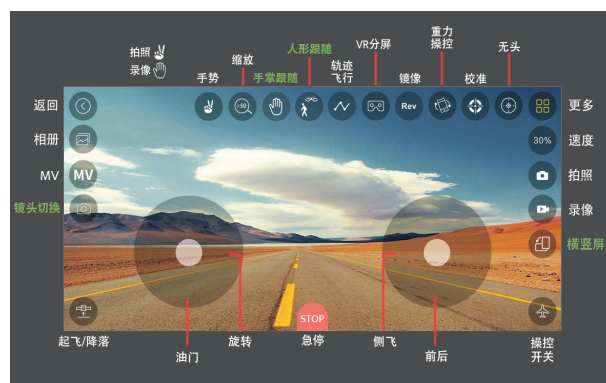

注意: 如果APP需要访问权限, 请全部点击确认, 不然APP无法正常使用

注意事项:

1. APP和遥控器无法同时控制无人机的起飞/降落
(APP功能在任何状态下除了操控飞行, 其他可以正常使用)
2. 如果需要APP控制无人机飞行, 需遥控器和无人机中断连接
具体步骤: 关闭遥控器, 打开APP的操控开关
3. 如果需要遥控器控制无人机飞行, 需关闭APP的操控开关
具体步骤: 关闭APP的操控开关, 打开遥控器和无人机连接
(切换控制的情况下需无人机在静止状态下, 不能在飞行状态下切换)
(初学者建议采用遥控器控制, 因为APP控制飞行比较困难)
用遥控器控制需先打开无人机, 再打开遥控器连接, 再连接APP使用
这样默认用遥控器控制, 如需切换APP控制, 请参考第二步骤

操作说明

操作及播放界面各图标含义。如下图所示

APP Operating Guide

Install mobile phone client

Please scan the corresponding QR code to download APP.

IOS

Android

Google play

Add a device

1. Turn on the product power switch (Note that it is not Bluetooth 蓝牙图标 ×)
2. Enter the phone "Settings" and open WIFI
3. Find the device's WIFI hotspot "FLOW_xxxxxx" from the WIFI list, click on the connection until the connection is successful
4. Open APP, click the start icon to enter the real-time interface

① . Link WiFi

②. Open the app

③ . Start operation

Attention: If the APP requires access permissions, please click confirm all times, otherwise the APP cannot be used normally

Notes:

1. The APP and remote control cannot simultaneously control the takeoff /landing of the drone
(APP functions can be used normally in any state except for controlling flight)
2. If an APP is needed to control drone flight, the remote control and drone need to be disconnected
Specific steps: Turn off the remote control and turn on the control switch of the APP
3. If you need the remote control to control the drone flight, you need to turn off the control switch of the APP
Specific steps: Turn off the control switch of the APP, open the remote control and drone connection
(When switching control, the drone needs to be in a stationary state and cannot switch in flight state)
(Beginners suggest using a remote control because it is difficult to control flight through apps)

To use the remote control, you need to first open the drone, then open the remote control connection, and then connect to the app. This defaults to using the remote control. If you need to switch app control, please refer to the second step

Operating instructions

For icon meaning of each operating and player interface, pls see below.
